Bachelor's Degree, Computer Science Umeå University	2020-08-31 - 2024-08-16
Preparatory Studies, Technical-Scientific Foundation Year Umeå University	2017-08-31 - 2018-06-10
Upper Secondary Education, Social Science Program Nolaskolan	2011-08-31 - 2014-06-10

Employment

Software Developer June 2023 - Ongoing
Regionalt Cancercentrum Norr
In my role, I work with development and maintenance of health informatics systems as part of a Scrum team. I am also part of a cross-functional group working with design and validation of system integrations.

Process Operator June 2022 - August 2022
Process Operator March 2019 - August 2020
Metsä Board Sweden

I was employed as a process operator in one of the halls at Metsä Board Sweden's board mill in Husum. Together with the work team, I was responsible for operating the machinery, both through control room operations and through practical measures.

Operational Purchaser/Warehouse Requisitioner August 2018 - February 2019
OnePartnerGroup, Domsjö Factories
I filled a vacancy shared between operational purchasing and warehouse requisitioning at the maintenance department of Domsjö Factories. The position involved managing contacts with suppliers for all factory spare parts and placing orders to maintain inventory levels.

Concrete Worker February 2016 - January 2017
Lernia, Strängbetong
As a consultant for Lernia, I primarily worked as a concrete caster. My responsibilities included reinforcement of prefabricated concrete walls and casting. Good planning and proficiency in reading of schematics were essential.

Central Reporting Agent August 2015 - December 2015
Runway BPO, InfoCare
At InfoCare's office in Benalmádena, on behalf of Runway, I worked in their central reporting department. There I handled administrative work such as invoicing for InfoCare's contract customers and time reporting for the company's many service technicians.
